Art. 11. Annual general meeting - Other General meetings. In accordance with the Company Law, if the number of Shareholders exceeds twenty-five (25), an annual General Meeting must be held at the Company's registered office or at any other place within the municipality of the registered office as specified in the convening notice of the annual General Meeting. The annual General Meeting must take place on June 30 of every year at 4:30 p.m. If such day is not a Business Day, the annual General Meeting shall be held on the next following Business Day.

Notwithstanding the above and in the absolute and final judgment of the Board or, as the case may be, the Sole Manager, the annual General Meeting may be held abroad if exceptional circumstances so require.

Other General Meetings are held at the time and place specified in the respective convening notices.

If the number of Shareholders is twenty-five (25) or less, resolutions of the Shareholders are adopted at a General Meeting or by way of circular resolutions (the Shareholders Circular Resolutions).

Where resolutions are adopted by way of Shareholders Circular Resolutions, each Shareholder must receive at his/her/its address (as it appears in the register of Shareholders) the text of the resolutions to be passed, which the Shareholder must execute. Shareholders Circular Resolutions must be executed by all the Shareholders in order to be valid and binding. Once executed, they will be valid and binding in the same way as if they had been adopted by a duly convened and held General Meeting and will bear the date of the last signature.

The Shareholders Circular Resolutions as well as the minutes of the General Meetings shall be kept at the Company's registered office.

Art. 12. Convening notices, Quorum, Powers of attorney and Vote. The Shareholders shall be convened to General Meetings and Shareholders Circular Resolutions may be proposed at the initiative of (i) any Manager or, as the case may be, the Sole Manager, (ii) the statutory auditors (if any) or (iii) Shareholders representing more than one-half (1/2) of the subscribed share capital of the Company.

Except in cases of emergency, the nature and circumstances of which shall be set forth in the convening notice of the General Meeting, written convening notices to any General Meeting shall be sent to all Shareholders at least eight (8) calendar days prior to the date of the General Meeting by registered mail to their address appearing in the register of Shareholders held by the Company.

The General Meeting may be held without prior written convening notice if all Shareholders are present and/or represented and consider themselves duly convened and informed of the agenda of the meeting.

A Shareholder may act at any General Meeting by appointing in writing another person, who need not be a Shareholder, as his/her/its proxy, whether in original, by fax or e-mail to which an electronic signature (which is valid under Luxembourg law) is affixed.

Any Shareholder may participate in a General Meeting by conference call, video conference or similar means of communication whereby (i) all the Shareholders attending the General Meeting can be identified, (ii) all persons participating in the General Meeting can hear and speak to each other, (iii) the transmission of the General Meeting is live and ongoing and (iv) the Shareholders can properly deliberate. Participation in a General Meeting by those means is equivalent to presence in person at such General Meeting.

Resolutions to be adopted at General Meetings shall be passed by Shareholders representing more than one-half (1/2) of the subscribed share capital of the Company. If this majority is not reached at the first General Meeting, the Shareholders shall be convened by registered mail to a second General Meeting and the resolutions shall be adopted at the second General Meeting by a majority of the votes cast, regardless of the proportion of subscribed share capital represented.

These Articles may be amended with the consent of a majority in number of Shareholders representing at least three-quarters (3/4) of the subscribed share capital of the Company.

Any change in the nationality of the Company and any increase of the Shareholders' commitments in the Company require the unanimous consent of the Shareholders.

Each Share entitles to one (1) vote at General Meetings.

Art. 13. Management. The Company shall be managed by one (1) or more Manager(s), including category A Manager(s) and category B Manager(s) who need not be Shareholders. If more than one (1) Manager are appointed, they together constitute the Board.

Managers are appointed by the General Meeting. The General Meeting shall also determine the number of Managers, their remuneration and the term of their office, if any. A Manager may be removed with or without cause and/or replaced, at any time, by a resolution adopted by the General Meeting.

Art. 14. Meetings of the board. The Board must appoint a Chairman among its members and may also designate a secretary.

The Chairman chairs all meetings of the Board. In his/her absence, the other present and/or represented Managers will, by a simple majority vote, appoint another Chairman pro tempore for the relevant meeting.

The secretary, who will be responsible for keeping the minutes of the meetings of the Board, need not be a Manager.

The Chairman, or any two (2) Managers, call(s) the meetings of the Board, which shall take place at the location indicated in the convening notice of the meeting.

Except in cases of emergency, the nature and circumstances of which shall be set forth in the convening notice of the meeting of the Board, written convening notices to a meeting of the Board shall be sent to all Managers at least twenty-four (24) hours prior to the date set for such meeting.

No written convening notice is required (i) if all Managers are present and/or represented at the meeting and consider themselves duly convened and informed of the agenda of the meeting or (ii) for any meeting held at a time and place previously determined in a resolution adopted by the Board.

The written convening notice may be waived by written consent of each Manager, whether in original, by fax or e-mail to which an electronic signature (which is valid under Luxembourg law) is affixed.

Any Manager may act at any meeting of the Board by appointing in writing another Manager as his/her/its proxy, whether in original, by fax or e-mail to which an electronic signature (which is valid under Luxembourg law) is affixed.

Any Manager may participate in a meeting of the Board by conference call, video conference or similar means of communication whereby (i) all the Managers attending the meeting can be identified, (ii) all persons participating in the meeting can hear and speak to each other, (iii) the transmission of the meeting is live and ongoing and (iv) the Managers can properly deliberate. Participation in a meeting by those means is equivalent to presence in person at such meeting.

The Board can validly deliberate and make decisions only if at least the majority of its members are present and/or represented, including at least one(1) category A manager and at least one(1) category B manager. A Manager may represent more than one of his/her/its colleagues, provided however that at least two (2) Managers are present at the meeting, including via means of communication permitted under these Articles and the Company Law. Decisions are made by the majority of the Managers present and/or represented, including at least one (1) category A Manager and one (1) category B Manager.

In case of a tied vote, the Chairman of the meeting shall have a casting vote.

Notwithstanding the above, resolution(s) of the Board may also be passed in writing. Such written resolution(s) shall consist of one (1) or more documents containing the resolution(s) signed by each Manager, and to which a manual or electronic signature (which is valid under Luxembourg law) is affixed. The date of the resolution(s) will be the date of the last signature.

Article 14 does not apply in case the Company is managed by a Sole Manager.

Art. 15. Minutes of meetings of the board or Minutes of resolutions of the sole manager. Resolutions passed by the Sole Manager shall be documented in written minutes signed by him/her/it and kept at the Company's registered office.

For any meeting of the Board, minutes shall be signed either by the Chairman, the member of the Board who chaired the meeting, or by all the Managers present at the meeting.

Copies or extracts of such minutes which may be produced in judicial proceedings or otherwise shall be signed by the Chairman, any two (2) Managers, including a category A Manager and a category B Manager or, as the case may be, the Sole Manager.

Art. 16. Powers of the board/sole manager. The Board or, as the case may be, the Sole Manager is vested with the broadest powers to manage the business of the Company and to authorize and/or perform or cause to be performed all acts of disposal and administration falling within the corporate objects of the Company.

All powers which are not expressly reserved to the General Meeting by the Company Law or by these Articles fall within the competence of the Board or, as the case may be, of the Sole Manager. Without limiting the generality of the foregoing, the Board or, as the case may be, the Sole Manager may: open or close accounts with banks, brokers or other financial institutions; enter into master agreements for the conduct of currency, interest rate and commodity dealings; and designate those person(s) who may execute transactions in those accounts or agreements as the case may be.

Art. 17. Delegation of powers. The Board may appoint a person (délégué à la gestion journalière), who need not be a Shareholder or a Manager, and who shall have full authority to act on behalf of the Company in all matters connected to its daily management and affairs.

The Board may appoint a person, who need not be a Shareholder and/or a Manager, as permanent representative of a Luxembourg public limited liability company (société anonyme) or of any other entity when required by its local law. In the case of a Sole Manager, the Sole Manager may appoint a person, who need not be a Shareholder, as permanent representative of a Luxembourg public limited liability company (société anonyme) or of any entity when required by its local law. This permanent representative, whose acts in its capacity as member of the management board of any such entity will bind the Company, shall act in the name and on behalf of the Company and with all discretion.

The Board or, as the case may be, the Sole Manager, is also authorized to appoint a person, who need not be a Manager, in order to perform specific functions within the Company.

Art. 18. Binding signatures. The Company shall be bound by the joint signature of one (1) category A Manager and of one (1) category B Manager for the following matters:

- the opening or closing of any account with a financial institution;
- the appointment or removal of person(s) who have authority over any account with a financial institution;
- the execution of any service-related agreement with a financial institution (such as an agreement to use the bank's funds transfer software); and
- the execution of any loan or credit agreement including a master agreement for transactions on derivatives (ISDA Master Agreement) with a third party or the execution of a guarantee for the benefit of a third party.

For all other matters, the Company shall be bound towards third parties by the joint signature of any two (2) category A Managers.

In any event, where the Company is managed by a Sole Manager, the Company shall be bound in all matters by the sole signature of the Sole Manager.

The Company shall further be bound by the signature or joint signature of any person(s) to whom the Board or, as the case may be, the Sole Manager has granted specific signatory powers, and only within the limits of those powers. As the case may be, the Company will be bound by the signature of the person entrusted with its daily management in accordance with the first paragraph of Article 17 above, and only within the limits of that function.

Art. 19. Liability of the manager(s). The Manager(s) do(es) not assume, by reason of his/her/its/their position, any personal liability in relation to commitments regularly made by him/her/it/them in the name of the Company provided such commitments comply with the Articles and the Company Law. They are authorized agents only and are therefore merely responsible for the execution of their mandate.

Art. 20. Audit. If the number of Shareholders exceeds twenty-five (25), the operations of the Company shall be supervised by one (1) or more statutory auditors) (commissaire(s) aux comptes), or, where required by the Company Law, an independent external auditor (réviseur d'entreprises agréé).

The General Meeting shall appoint the statutory auditor(s) (commissaire(s) aux comptes), if any and the independent external auditor (réviseur d'entreprises agréé), if any, and determine their number, remuneration and the term of their office, which may not exceed six (6) years. The statutory auditor(s) (commissaire(s) aux comptes) and the independent external auditor (réviseur d'entreprises agréé) may be re-appointed.

Art. 21. Accounting year. The accounting year of the Company shall begin on the first (1st) day of January and ends on the thirty-first (31st) day of December of each year.

Art. 22. Annual accounts. The Board or, as the case may be, the Sole Manager draws up at the end of every accounting year, the annual accounts of the Company and an inventory in the form required by the Company Law.

Each Shareholder may inspect the above inventory and annual accounts at the Company's registered office.

Art. 23. Allocation of profits. From the annual net profits of the Company, five per cent (5%) shall be allocated to the legal reserve in accordance with the Company Law. This allocation ceases to be a requirement as soon as the legal reserve reaches ten per cent (10%) of the subscribed share capital of the Company as provided in Article 6 of the Articles from time to time, and becomes compulsory again as soon as the reserve falls below ten per cent (10%).

The Annual General Meeting decides on the allocation of the remaining annual net profits and may, in its own discretion and within the limits of the Company Law, resolve to pay dividends from time to time, taking into account the corporate object and policy of the Company.

Interim dividends may be distributed at any time under the following conditions:

- (i) the Board or, as the case may be, the Sole Manager draws up interim accounts;
- (ii) the interim accounts show that earnings and other reserves (including share premium) are available for distribution, provided that the amount to be distributed does not exceed profits made since the end of the last financial year for which annual accounts were approved, if any, plus any profits carried forward and distributable reserves, and minus losses carried forward and sums to be allocated to the legal reserve;
- (iii) the auditor of the Company (if any) has stated in his/her/its report to the Board or, as the case may be, to the Sole Manager, that conditions (i) and (ii) above have been met;

- (vi) where the interim dividends paid exceed the distributable profits at the end of the accounting year, the Shareholders shall be obliged, upon the request of the Company, to refund the excess to it.

Art. 24. Dissolution. The Company is not dissolved by reason of the death, suspension of civil rights, incapacity, bankruptcy, insolvency or any similar event affecting one (1) or more Shareholders.

The Company may at any time be dissolved by a resolution of the General Meeting adopted in the manner required for amendment to these Articles, as per Article 12 above. In the event of dissolution of the Company, the liquidation shall be carried out by one (1) or more liquidators (whether physical or legal persons) appointed by the General Meeting deciding said liquidation. The General Meeting will also determine the powers and remuneration of the liquidator(s).

The surplus remaining after realization of assets and payment of debts will be distributed to Shareholders in proportion to the Shares held by them.

Art. 25. Applicable law. All matters not expressly governed by these Articles shall be determined in accordance with the Company Law and subject to any non-waivable provisions of the applicable law, any agreement entered into from time to time by the Shareholders.

Le Conseil ou, le cas échéant, le Gérant Unique peut considérer que des événements extraordinaires d'ordre politique ou militaire de nature à compromettre l'activité normale de la Société à son siège social, ou la communication aisée entre le siège social de la Société et l'étranger se sont produits ou sont imminents. Art. 10. Pouvoirs de l'assemblée générale. Toute Assemblée Générale régulièrement constituée représente tous les Associés. Elle a les pouvoirs les plus étendus pour ordonner, accomplir ou ratifier tous les actes relatifs aux opérations de la Société.

Dans ces Statuts, toute référence aux décisions prises ou aux pouvoirs exercés par l'Assemblée Générale est une référence aux décisions prises ou aux pouvoirs exercés par l'Associé Unique aussi longtemps que la Société n'a qu'un (1) seul Associé. Les décisions prises par l'Associé Unique sont consignées par voie de procès-verbaux écrits.

Art. 11. Assemblée générale annuelle - Autres assemblées générales. Conformément à la Loi sur les Sociétés, si le nombre des Associés excède vingt-cinq (25), une Assemblée Générale annuelle doit se tenir au siège social de la Société ou à tout autre endroit de la commune du siège social indiqué dans la convocation de l'Assemblée Générale annuelle. Elle se tient le 30 juin de chaque année à 16h30. Si ce jour n'est pas un Jour Ouvrable, l'Assemblée Générale annuelle se tiendra le premier Jour Ouvrable suivant.

Nonobstant ce qui précède, si le Conseil ou, le cas échéant, le Gérant Unique, considère souverainement que des circonstances exceptionnelles le requièrent, l'Assemblée Générale annuelle peut se tenir à l'étranger.

Les autres Assemblées Générales sont tenues au lieu et à l'heure spécifiés dans les convocations.

Si le nombre des Associés est inférieur ou égal à vingt-cinq (25), les résolutions des Associés sont adoptées par l'Assemblée Générale ou par voie de résolutions circulaires (les Résolutions Circulaires des Associés).

Lorsque des résolutions sont adoptées par voie de Résolutions Circulaires des Associés, chaque Associé recevra à son adresse (telle qu'elle apparaît sur le registre des Associés) le texte des résolutions à passer, qu'il/elle devra signer. Les Résolutions Circulaires des Associés doivent être signées par tous les Associés pour être valides et engager la Société. Une fois signées, elles seront valides et engageront la Société de la même manière que si elles avaient été adoptées par une Assemblée Générale dûment convoquée et tenue et porteront la date de la dernière signature.

Les Résolutions Circulaires des Associés de même que les procès-verbaux des Assemblées Générales sont conservés au siège social de la Société.

Art. 12. Avis de convocation, Quorum, Procurations et Vote. Les Associés sont convoqués aux Assemblées Générales ou bien consultés par voie de Résolutions Circulaires des Associés à l'initiative (i) de tout Gérant ou, le cas échéant, du Gérant Unique, (ii) du/des commissaire(s) aux comptes (le cas échéant) ou (iii) d'Associés représentant plus de la moitié (1/2) du capital social souscrit de la Société.

Une Assemblée Générale peut être tenue sans convocation écrite préalable si tous les Associés sont présents et/ou représentés et se considèrent dûment convoqués et informés de son ordre du jour.

Tout Associé peut prendre part à toute Assemblée Générale en désignant par écrit, soit en original, soit par fax ou par un courriel muni d'une signature électronique (en conformité avec la loi luxembourgeoise), une autre personne comme mandataire, Associé ou non.

Tout Associé peut participer à une Assemblée Générale par conférence téléphonique, vidéo conférence ou tout autre moyen de communication similaire grâce auquel (i) tous les Associés participant à l'Assemblée Générale peuvent être identifiés, (ii) toute personne participant à l'Assemblée Générale peut entendre les autres participants et leur parler, (iii) l'Assemblée Générale est retransmise en direct et en continu et (iv) les Associés peuvent valablement délibérer. La participation à une Assemblée Générale par un tel moyen de communication équivaudra à une participation en personne à l'Assemblée Générale.

Les résolutions devant être adoptées en Assemblées Générales sont prises par les Associés représentant plus de la moitié (1/2) du capital social souscrit de la Société. Si cette majorité n'est pas atteinte lors de la première Assemblée Générale, les Associés seront convoqués par lettre recommandée à une seconde Assemblée Générale et les résolutions seront adoptées lors de la seconde Assemblée Générale à la majorité des voix exprimées, sans tenir compte de la proportion du capital social souscrit représenté.

Les présents Statuts peuvent être modifiés avec le consentement d'une majorité en nombre d'Associés représentant au moins trois-quarts (3/4) du capital social souscrit de la Société.

Le changement de la nationalité de la Société et l'augmentation des engagements des Associés dans la Société exigent l'accord unanime des Associés.

Chaque Part Sociale donne droit à une (1) voix aux Assemblées Générales.

Art. 13. Gérance. La Société est gérée par un (1) ou plusieurs Gérant(s), incluant des Gérant(s) de catégorie A et des Gérant(s) de catégorie B Associé(s) ou non. Si plusieurs Gérants sont nommés, ceux-ci constitueront ensemble le Conseil.

Les Gérants sont nommés par l'Assemblée Générale. L'Assemblée Générale détermine également le nombre de Gérants, leur rémunération et la durée de leur mandat. Un Gérant peut être révoqué avec ou sans motif et/ou remplacé, à tout moment, par une résolution adoptée par l'Assemblée Générale.

Art. 14. Réunion du conseil. Le Conseil doit nommer un Président parmi ses membres et peut également désigner un secrétaire.

Le Président préside toutes les réunions du Conseil. En son absence, les autres Gérants présents et/ou représentés nommeront, par un vote à la majorité simple, un autre Président pro tempore qui présidera la réunion en question.

Le secrétaire, qui sera en charge de la tenue des procès-verbaux des réunions du Conseil, peut mais ne doit pas être Gérant.

Les réunions du Conseil sont convoquées par le Président ou par deux (2) Gérants, au lieu indiqué dans la convocation de la réunion.

Sauf en cas d'urgence, dont la nature et les motifs seront mentionnés dans la convocation, les convocations écrites de toute réunion du Conseil sont envoyées à chaque Gérant vingt-quatre (24) heures au moins avant la date prévue pour la réunion.

La réunion peut être tenue sans convocation préalable (i) si tous les Gérants sont présents et/ou représentés et se considèrent dûment convoqués et informés de son ordre du jour ou (ii) pour une réunion se tenant aux lieu et heure prévus dans une résolution préalablement adoptée par le Conseil.

Chaque Gérant peut renoncer à la convocation écrite par un accord écrit soit en original, soit par fax ou par un courriel muni d'une signature électronique (en conformité avec la loi luxembourgeoise).

Tout Gérant peut participer à une réunion du Conseil en désignant par écrit, soit en original, soit par fax ou par un courriel muni d'une signature électronique (en conformité avec la loi luxembourgeoise), un autre Gérant comme son mandataire.

Le Conseil ou, le cas échéant, le Gérant Unique est aussi autorisé à nommer une personne, Gérant ou non, pour l'exécution de missions spécifiques dans la Société.

Art. 18. Signatures autorisées. La Société est engagée par la signature conjointe d'un (1) Gérant de catégorie A et d'un (1) Gérant de catégorie B pour les circonstances suivantes:

Art. 24. Dissolution. La Société n'est pas dissoute du fait du décès, de la suspension des droits civils, de l'incapacité, de la faillite, de l'insolvabilité ou de tout autre événement similaire affectant un (1) ou plusieurs Associés.

La Société peut être dissoute à tout moment par une résolution de l'Assemblée Générale statuant de la manière requise en cas de modification des Statuts, selon l'article 12 ci-dessus. En cas de dissolution de la Société, la liquidation est effectuée par un ou plusieurs liquidateurs (qui peuvent être des personnes physiques ou morales) nommés par l'Assemblée Générale décidant cette liquidation. 1.4 Related parties

1.5 Estimates

The preparation of financial statements in conformity with the relevant rules requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. If necessary for the purposes of providing the view required under Section 362(1), Book 2, of the Netherlands Civil Code, the nature of these estimates and judgments, including the related assumptions, is disclosed in the notes to the financial statement items in question.

2. Principles of valuation of assets and Liabilities.

2.1 General

If not specifically stated otherwise, they are recognised at the amounts at which they were acquired or incurred. The balance sheet and profit and loss account include references to the notes. The Company's annual accounts were prepared in accordance with the statutory provisions of Part 9, Book 2, of the Netherlands Civil Code and the firm pronouncements in the Guidelines (or Annual Reporting in the Netherlands as issued by the Dutch Accounting Standard Board).

Cash and cash equivalents are stated at face value.

Cash and cash equivalents are at the free disposal of the company.

2.4 Foreign Currencies

Items included in the financial statements of the Company are measured using the currency of (he primary economic environment in which the respective company operates (the functional currency). The financial statements are presented in Euros, which is the functional and presentation currency of the Company,

Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange prevailing at the balance sheet date. Non-monetary assets and liabilities denominated in foreign currencies are translated at the rate prevailing at the transaction date. Exchange differences resulting from settlement and translation are charged or credited to the profit and loss account.

Transactions denominated in foreign currencies in the reporting period are recognised in the annual accounts at the exchange rate ruling at the transaction date.

2.5 Amounts due from group companies

Amounts due from group companies are initially measured at fair value. These loans are subsequently carried at amortised cost. Transaction costs are included in the initial valuation.

Impairment losses are deducted from amortised cost and expensed in the income statement.

2.6 Impairment of non-current assets

At each balance sheet date, the Company tests whether there are any indications of assets being subject to impairment. If any such indications exist, the recoverable amount of the asset is determined. An asset is subject to impairment if its carrying amount exceeds its recoverable amount; the recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

Fair value less costs to sell is determined based on the active market. For the purposes of determining value in use, cash flows are discounted at a rate of 8.2% (2009: 9.2%). An impairment loss is directly expensed in the income statement.

If it is established that a previously recognised impairment loss no longer applies or has declined, the increased carrying amount of the assets question is not set any higher than the carrying amount that would have been determined had no asset impairment been recognised.

The Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. If any such evidence exists, the impairment loss is determined and recognised in the income statement.

The amount of an impairment loss incurred on financial assets stated at amortised cost is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss shall be reversed. The reversal shall not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal shall be recognised in profit or loss.

2.7 Other current assets

Derivative financial instruments are valued at fair value, which usually equals face value unless stated otherwise. Forward foreign exchange contracts valuation is at year end against forward rates.

2.8 Non-current liabilities

Non-current liabilities are carried at amortised cost, being the amount received taking account of any premium or discount, less transaction costs.

The difference between the carrying value determined and the ultimate repayment value, together with the interest due, is determined in such a manner that the effective interest is taken to the profit and loss account during the term of the liabilities.

2.9 Amounts due to group companies

Amounts due to group companies are initially measured at fair value. These loans are subsequently carried at amortised cost. Transaction costs are included in the initial valuation.

The principal activities of the Company mainly relate to financing of group companies of Harsco Corporation.

1.2 Cash flow statement

The Company did not draw up statements of cash flows since the shares of the Company are fully owned by Harsco Corporation, which consolidates its participation in the Company. The financial statements of Harsco Corporation including consolidated statements of cash flows have been filed at the Chamber of Commerce in Amsterdam.

1.3 Accounting policies

The company annual accounts were prepared in accordance with the statutory provisions of Part 9, Book 2, of the Netherlands Civil Code and the firm pronouncements in the Guidelines for Annual Reporting in the Netherlands as issued by the Dutch Accounting Standard Board.

1.4 Related parties

The ultimate parent company Harsco Corporation and its subsidiaries qualify as a related party. Transactions into funding between related parties are considered to be based upon an arm's length basis.

1.5 Estimates

The preparation of financial statements in conformity with the relevant rules requires the use of certain critical accounting estimates, it also requires management to exercise its judgement in the process of applying the Group's accounting policies. If necessary for the purposes of providing the view required under Section 362(1), Book 2, of the DCC, the nature of these estimates and judgments, including the related assumptions, is disclosed in the notes to the financial statement items in question.

2. Principles of valuation of assets and Liabilities.

2.1 General

In general, assets and liabilities are stated at the amounts at which they were acquired or incurred, or fair value. If not specifically stated otherwise, they are recognised at the amounts at which they were acquired or incurred. The balance sheet and profit and loss account include references to the notes. The Company's annual accounts were prepared in accordance with the statutory provisions of Part 9, Book 2, of the Netherlands Civil Code and the firm pronouncements in the Guidelines for Annual Reporting in the Netherlands as issued by the Dutch Accounting Standard Board.

2.2 Comparison with prior year

The principles of valuation and determination of result remained unchanged compared to prior year.

2.3 Cash and bank balances

Cash at banks and in hand consists of cash in hand, cash in banks and deposits with a maturity of less than twelve months. Current account overdrafts at banks are included under bank loans and overdrafts under the heading of current liabilities.

Cash and cash equivalents are stated at face value.

Cash and cash equivalents are at the free disposal of the company.

2.4 Foreign Currencies

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the respective company operates (the functional currency). The financial statements are presented in Euros, which is the functional and presentation currency of the Company.

Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange prevailing at the balance sheet date. Non-monetary assets and liabilities denominated in foreign currencies are translated at the rate prevailing at the transaction date. Exchange differences resulting from settlement and translation are charged or credited to the profit and loss account.

Transactions denominated in foreign currencies in the reporting period are recognised in the annual accounts at the exchange rate ruling at the transaction date.

2.5 Amounts due from group companies

Amounts due from group companies are initially measured at fair value. These loans are subsequently carried at amortised cost. Transaction costs are included in the initial valuation.

Impairment losses are deducted from amortised cost and expensed in the income statement.

2.6 Impairment of non-current assets

At each balance sheet date, the Company tests whether there are any indications of assets being subject to impairment. If any such indications exist, the recoverable amount of the asset is determined. An asset is subject to impairment if its carrying amount exceeds its recoverable amount; the recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

Fair value less costs to sell is determined based on the active market. For the purposes of determining value in use, cash flows are discounted at a rate of 10% (2010: 9.2%). An impairment loss is directly expensed in the income statement.

If it is established that a previously recognised impairment loss no longer applies or has declined, the increased carrying amount of the assets in question is not set any higher than the carrying amount that would have been determined had no asset impairment been recognised.

The Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. If any such evidence exists, the impairment loss is determined and recognised in the income statement.

The amount of an impairment loss incurred on financial assets stated at amortised cost is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss shall be reversed. The reversal shall not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal shall be recognised in profit or loss.

2.7 Deferred income tax assets and liabilities

Deferred income tax assets and liabilities are recognised to provide for temporary differences between the tax bases of assets and liabilities, and their carrying amounts in the financial statements. Deferred Income tax is determined using tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets re deductible temporary differences and available fiscal losses are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences and fiscal losses can be utilised.

Deferred income tax is provided on temporary differences arising on investments in group companies, associates and joint ventures, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income taxes are recognised at face value.

2.8 Other current assets

Derivative financial instruments are valued at fair value, which usually equals face value unless stated otherwise. Forward foreign exchange contracts valuation is at year end against forward rates.

2.9 Non-current liabilities

Non-current liabilities are carried at amortised cost, being the amount received taking account of any premium or discount, less transaction costs.

The difference between the carrying value determined and the ultimate repayment value, together with the interest due, is determined in such a manner that the effective interest is taken to the profit and loss account during the term of the liabilities.

2.10 Amounts due to group companies

Amounts due to group companies are initially measured at fair value. These loans are subsequently carried at amortised cost. Transaction costs are included in the initial valuation,

2.11 Derivative financial Instruments

Forward foreign exchange contracts are valued at year end against forward rates. Changes in the fair value of these derivative instruments are recognised directly in the income statement

3. Principles of determination of result.

3.1 General

The results on transactions are recognised in the year in which they are realised; losses are taken as soon as they are foreseeable.

3.2 Selling, general and administrative expenses

Selling, general and administrative expenses are recognised at the historical cost convention and are allocated to the reporting year to which they relate.

3.3 Taxation

Profit tax is calculated on the profit/loss before taxation in the profit and loss account, taking into account any losses carried forward from previous financial years tax-exempt items and nondeductible costs.

The tax position has been calculated at the United Kingdom Corporation tax rate at 26.5% (2010: 28%) as this entity is a United Kingdom tax resident.

3.4 Interest income and expense

Interest Income and expense is recognised on a pro-rata basis, taking account of the effective interest rate of the assets and liabilities concerned. When recognising the interest charges, the transaction cost on the loans received is taken into account.

4. Financial Instruments and Risk management.

7.1 Derivative financial instruments

Derivative financial instruments are used to reduce foreign currency risks. Financial instruments are not used for speculative purposes. Foreign currency instruments are used to reduce the foreign currency risk arising on operating activities and financing in foreign currencies. Forward exchange contracts with a term of up to one year are used to hedge the foreign currency risks from operating activities. The valuation of these contracts at year-end rates equals the valuation of the respective business transactions.

The estimated market value indicates the amount payable or receivable in exchange for termination of the contracts as at year-end without further obligations.

Derivative financial instruments are valued at fair value, which usually equals face value unless stated otherwise. Forward foreign exchange contracts valuation is at year end against forward rates.

As at the end of 2011 the following amounts are outstanding:

Directors's responsibility

The directors are responsible for the preparation and fair presentation of these financial statements and for the preparation of the directors' report, both in accordance with Part 9 of Book b of the Dutch Civil Code. Furthermore, the directors are responsible for such internal control as they determine is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Dutch law, including the Dutch Standards on Auditing. This requires that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of Harsco International Finance B.V. as at 31 December 2011, and of its result for the year then ended in accordance with Part 9 of Book 2 of the Dutch Civil Code.

Report on other legal and Regulatory requirements

Pursuant to the legal requirement under Section a: 393 sub 5 at e and f of the Dutch Civil Code, we have no deficiencies to report as a result of our examination whether the directors' report, to the extent we can assess, has been prepared in accordance with Part 9 of Book 2 of this Code, and whether the information as required under Section 2:392 sub 1 at b-h has been annexed.
